

Sujitha Sree Achanta

UX Designer | Inclusive Design, Interaction Design, UX Research

Pune, Maharashtra, India | +91 9177399193 | sujitha.s.achanta@gmail.com | www.linkedin.com/in/sujitha-achanta | sujithaachanta.framer.website

PROFILE SUMMARY

I'm Sujitha Achanta, a Impact driven UX Designer specializing in inclusive digital products, interaction design, and user research. Experienced in increasing accessibility and usability for diverse audiences. Adept at simplifying complex workflows, driving measurable improvements in user satisfaction, and collaborating with cross-functional teams to deliver intuitive solutions. My approach blends research, system architecture and rapid prototyping to create products that are technically strong and visually sharp.

EDUCATION

Bachelor of Design (B.Des.) in User Experience Design | GPA: 8.52 Aug 2023 – Jun 2027
MIT World Peace University, Pune, India

Relevant Coursework: Human Computer Interaction, Interaction Design, Information Architecture, Cognitive Psychology, Usability Testing, Advanced Prototyping

Primary & Secondary Education
Birla Public School, Doha, Qatar

PROFESSIONAL EXPERIENCE

UX Design Intern, Wisdom Technologies Pvt Ltd Dec 2025 – Feb 2026
Hyderabad, India

- Redesigned industrial antenna interface, improving task completion speed by 30% and reducing user error rates through clearer visualization and intuitive navigation.
- Designed wireframes and interactive prototypes for technician feedback, leading to a 25% increase in user satisfaction survey scores.
- Collaborated with engineers to streamline multi-angle data displays, making complex technical information easier to interpret.

SELECTED ACADEMIC PROJECTS

Mimo: Communication Support System for Autistic Children & Caregivers 2026

- Designed a dual-sided AI app that improved communication outcomes for autistic children and caregivers, reducing stress in high-challenge scenarios by 20% (user testing results).
- Built interaction flows and parent-facing dashboards that translated behavioral data into actionable insights.

Mediconnect: Hospital Lab Technician Dashboard System 2025

- Created medical data dashboards for lab assistants, decreasing task time by 15% through better interface hierarchy (user testing results) and faster information retrieval.
- Built Figma component libraries and visual systems for scalable design.

Sahayak Setu: Healthcare Access & Government Financial Aid (Yojana) Kiosk 2025

- Designed user flows and wireframes for a hospital kiosk that simplified access to government healthcare schemes, which would increase registration rates.
- Conducted field research to identify and reduce barriers to healthcare enrollment.

Clay: AI-Assisted Gamified Learning Platform 2025

- Designed a gamified learning app enabling any topic to be turned into an interactive game, allowing learners to engage with content through customizable game formats (quizzes, puzzles, adventures), making education more fun and adaptable for all ages.
- Used AI-powered prototyping to rapidly test and refine user interactions.

TECHNICAL SKILLS

UX Research	Systems Design	No-Code Tools
Interaction Design	Rapid Prototyping	Branding & Visual Design
Systems Thinking	Usability Testing	Motion Graphics
Inclusive Design	Information Architecture	AI-Assisted Workflows

TOOLS

Figma	ProtoPie	Blender
Framer	Affinity Studio	Jitter
Adobe Creative Suite	Webflow	
Sketch	Spline	

CERTIFICATES

IIT Hyderabad × MIT-WPU Design Immersion Programme	<i>Feb 2026</i>
• Participated in a 7-day intensive design immersion programme hosted by the Department of Design, IIT Hyderabad. • Attended full-day expert-led workshops and lectures by IIT Hyderabad faculty across multiple design and interdisciplinary domains, focusing on immersive learning, design thinking, research, systems, and emerging approaches in design practice.	
LEAD102: Teamwork & Collaboration – Rochester Institute of Technology	<i>Dec 2023</i>
LEAD103: Critical Thinking & Problem Solving – Rochester Institute of Technology	<i>Dec 2023</i>
DV0130: Data Visualization & Dashboard Building with Excel and Cognos – IBM	<i>Dec 2023</i>
SDG1001: Measuring Sustainable Development – SDG Academy	<i>Dec 2023</i>

VOLUNTEER EXPERIENCE & COMMUNITY ENGAGEMENT

- Active member in **Friends of Figma** and **ADI (Association of Designers India)**; I regularly participate in events, workshops, and design challenges.
- Volunteered for university events, applying UX and design principles to real-world projects.
- Engaged with design communities such as Evolve design community, Design Amigos, and UX India.
